

## Requires

### UX/UI Frontend HTML Designer

#### Job description

We are seeking a creative and detail-oriented Frontend HTML Designer to join our team. The ideal candidate will have a strong understanding of HTML, CSS, and responsive web design principles while also possessing an eye for design. This role combines UI/UX design capabilities with hands-on coding to create visually appealing, user-friendly web experiences.

#### Key Responsibilities

- Design and develop responsive web pages using HTML5, CSS3, and basic JavaScript.
- Translate design mock-ups and wireframes into functional, pixel-perfect web interfaces.
- Collaborate with design and development teams to enhance UI/UX across web applications.
- Create visually engaging designs, including web banners, landing pages, and email templates.
- Optimize web pages for speed, scalability, and mobile responsiveness.
- Apply modern design principles to ensure a clean and intuitive user experience.
- Stay updated with web design trends, tools, and best practices to deliver high-quality work.
- Ensure compatibility of designs and code across multiple browsers and devices.

#### Requirements:

- Education: Bachelor's degree in web design, Graphic Design, Computer Science, or related field (or equivalent experience).
- 1-2 years of relevant experience

#### Technical Skills:

- Proficiency in HTML5 and CSS3.
- Basic understanding of JavaScript (for dynamic elements and interactions).
- Experience with responsive design frameworks like Bootstrap or Tailwind CSS.
- Familiarity with design tools such as Figma, Adobe Photoshop, Illustrator, or Sketch.
- Understanding of cross-browser compatibility and mobile-first design principles.

- Ability to convert design mock-ups (PSD, Figma, Sketch) into clean, functional web pages.
- Strong eye for detail, typography, color, and visual balance.
- Understanding of user experience (UX) and ability to create intuitive interfaces.
- Good communication and collaboration skills.

**Preferred Skills (Optional):**

- Experience with front-end libraries or frameworks (e.g., React, Vue.js).
- Knowledge of basic animation using CSS or JavaScript (GSAP, Scroll animations).
- Understanding of SEO-friendly HTML structure and accessibility standards.
- Familiarity with version control tools like Git.
- Experience with designing for Content Management Systems (e.g., WordPress).

**Work Location:** IIM Ahmedabad Campus, Ahmedabad, Vastrapur, Ahmedabad

**Age:** Maximum 30 years

This position will be on **Third Party Payroll**.

Interested candidates are required to share their updated resumes on [career@iima.ac.in](mailto:career@iima.ac.in) with subject line “**Application for UX/UI Frontend HTML Designer**” latest by April 03, 2025.
